## CHARACTERS

With the Characters series, the classic washbowl is given a completely new expression—reduced in form, impressive in impact, and directly inspired by nature. Innovative enamel surfaces lend the steel extraordinary depth and vibrancy, shifting with the light and reflecting the ever-changing play of the elements.

Characters brings the full spectrum of nature into the bathroom:

The rich aquatic tones deep indigo, deep blue, and deep green evoke the vastness of the ocean and the depth of the sky. Earthy shades like oyster matt, silk matt, gravel matt, and nordic matt embody the calm of natural landscapes at first light—soft, matte finishes with a velvety appearance. Complemented by timeless tones such as dark iron, matte black, and white, the result is a series of distinctive washbasins available in three thoughtfully designed sizes: 300, 360, and 450 mm in diameter.

Each surface is created through a sophisticated enameling process that combines precise technology with artisanal craftsmanship. The result: individual basins with a velvety texture and lively color gradients that reflect light in a truly unique way.

Characters transforms the washbowl into a design statement—minimalist and functional, yet full of personality and natural beauty.
