TRICOLOR

Tricolor represents a new dimension in bathroom design: three carefully coordinated colors come together to create a unique fusion of color, surface, and form. Matte and glossy segments meet, generating a special visual depth. Each of the three color combinations gives the wash area a distinctive atmosphere. Tricolor acts like an architectural color statement in the room: bold in its impact, yet soft in its transitions. The color scheme not only creates contrasts but also fluid transitions, making the washbasin appear almost sculptural. With Tricolor, the wash area becomes a stage for color combinations, expression, and individuality—far beyond traditional sanitary aesthetics.
